LIFTX

Powerful and convenient

The 2500 is a heavy-duty electric tow tractor with a towing capacity of 6,000 kg, ideal for virtually all types of roll containers, auction trolleys and industrial trailers. Despite its impressive power, it doesn't compromise on ease of use or manoeuvrability. With its low step and exceptionally tight turning circle, this sit-on model is comfortable to operate.

Extra-long runtime

One of the best things about this quiet powerhouse is its impressive endurance. With its higher voltage – 36 volts instead of the standard 24 – it delivers, on average, 50% longer runtime. This makes it ideal for working environments where the electric tow tractor is used frequently, for long periods and without interruption.

Quiet and green

This tow tractor is equipped with a powerful, whisper-quiet motor. With zero emissions and outstanding efficiency, the 2500 is a smart investment for any business. Is sustainability a priority for your company? It is for us, too. Sustainability is at the heart of our operations, from the production to the performance of our electric tow tractors.

The 2500 is a powerful sit-on electric tow tractor with a towing capacity of 6,000 kg.

2500	
Maximum towing capacity	6,000 kg (≈ 13,228 lbs)
Maximum tractive force	x
Voltage	36 V
Drive system	Differential
Motor	4,000 W DC
Brake system	Hydraulic
Parking brake	Handbrake
Horn	Yes
Battery indicator	Yes
Forward speed	14 km/h (≈ 8.7 mph)
Reverse speed	6 km/h (≈ 3.7 mph)
Standard drive wheels	Solid rubber
Steering wheel	Solid rubber
Machine weight including battery	556 kg incl. batteries (≈ 1,225 lbs)
Maximum permissible counterweight	500 kg (≈ 1,102 lbs)
Dimensions l×w×h	1,730 × 875 × 1,100 mm (≈ 68.1 × 34.4 × 43.3 in)
Standard battery	36 V 240 Ah full traction
Battery charger	Internal 36 V 25 A
